Dear Gail and Tommy:

The both of you exemplify the giving heart and I want you to know again what a difference you have made. Your generosity in providing Kindles to our Durham Youthwork Internship participants was an act that these young men and women will remember all of their lives. Your recognition of their achievements is just the kind of thing the world needs more of. You gave a positive acknowledgement of faith in these young people and I will always remember the pride and happiness on their faces. Thank you again for being such a special and strong part of their lives and of the internship program.

Sincerely,

Michael Honeycutt
Senior Workforce Manager
